

# Updated Companion Quality Assurance Report

---

The updated pack was checked against the final Book 3 print master for chapter titles, student tasks, revised learning layers, cumulative reviews, teacher answers, diagnostic notes, and Recalculation Path skill alignment.

## Required checks

| Check                  | Result                                                                                                                                              |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| Student identification | Every student document contains Name, Grade, and Date fields.                                                                                       |
| Working space          | Every student task provides ruled space for written work or reasoning.                                                                              |
| Chapter coverage       | All 16 chapters contain eight student-facing resource types, with Classification and Justification Practice serving as Chapter 16's extension task. |
| Revision update        | The missing Chapter 6 Revision, Strategy, and Transfer Packet is restored from the final manuscript.                                                |
| Cumulative reviews     | All four final-manuscript reviews are included with a teacher diagnostic answer guide.                                                              |
| Teacher separation     | Answers, misconceptions, and instructional next moves remain in teacher-only files.                                                                 |
| Recalculation Path     | The 46-skill diagnostic map, student forms, teacher keys, and tracker are retained as book-level supports.                                          |
| Output                 | Each editable DOCX has a matching print-ready PDF.                                                                                                  |
